

Delft University of Technology

Scholarships Faculty of Applied Sciences

Each year the Faculty of Applied Sciences offers a limited number of scholarships to students with exceptional promise and outstanding academic achievement who have been accepted for admission.

Level of study	Master
Programmes	Applied Physics Chemical Engineering Life Science & Technology Science Education and Communication Sustainable Energy Technology
Conditions of the scholarship	<p>The scholarships will be awarded on academic merit and on the basis of information provided in the MSc programme application. Selection is made by the Faculty of Applied Sciences Scholarship Selection Committee.</p> <p>Faculty of Applied Sciences Scholarships are only available to candidates commencing new courses. Continuing students are not eligible to apply.</p> <p>A Faculty of Applied Sciences scholarship cannot be combined with any other full or partial scholarship or grant (for example the Royal Dutch Shell Centenary Scholarship, NFP or HSP Huygens). If awarded another scholarship covering tuition fees and/or living expenses, the student must contact the Faculty of Applied Sciences immediately with the details of the award.</p>
Application information	All students accepted to an MSc programme of the Faculty of Applied Sciences will automatically be considered for a Faculty Scholarship.
